PVC, metal, semi-metal, ceramic and embedded cards.

Lead Time

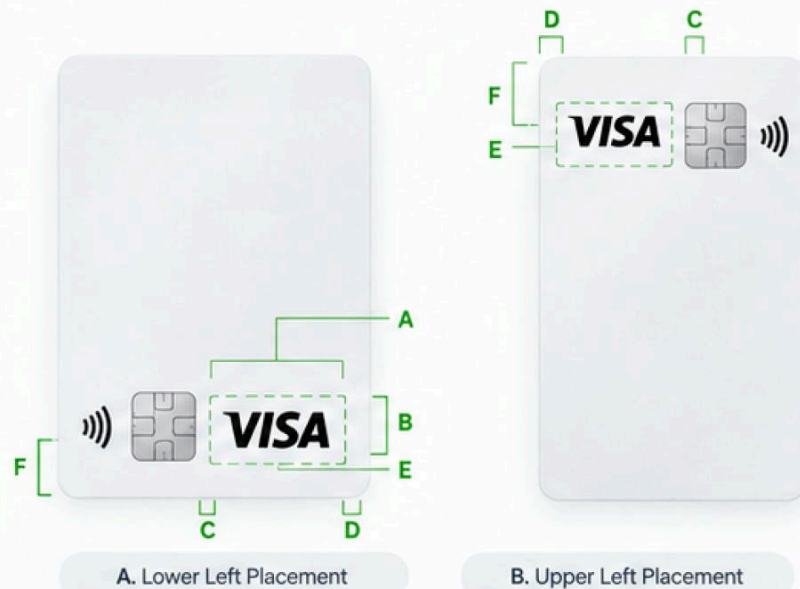

Approximately 8–12 weeks.

White-Lable Card Design Guidelines

1

Brand Mark & Chip Placement

Primary placement options and spacing requirements.

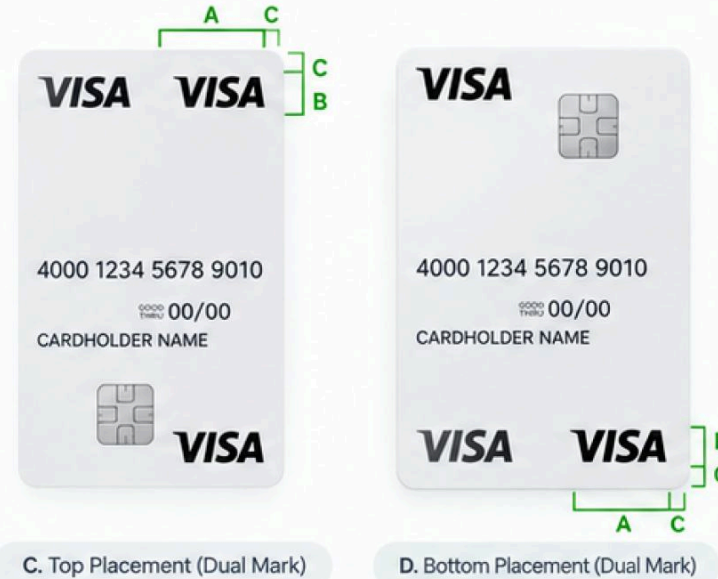

A	18.872 mm	Width of Visa Brand Mark
B	11.0 mm	Height of brand mark placement area
C	3.0 mm	Minimum distance between Visa Brand Mark and chip
D	3.0 mm	Minimum distance from Visa Brand Mark to edge of card
E		Defines the brand mark placement area
F	9.5 mm	Distance from chip and brand mark placement area to edge of card

Note: The Visa Brand Mark may be displayed anywhere within the brand mark placement area.

2

Alternative Placements

Additional permitted placements for Visa brand mark.

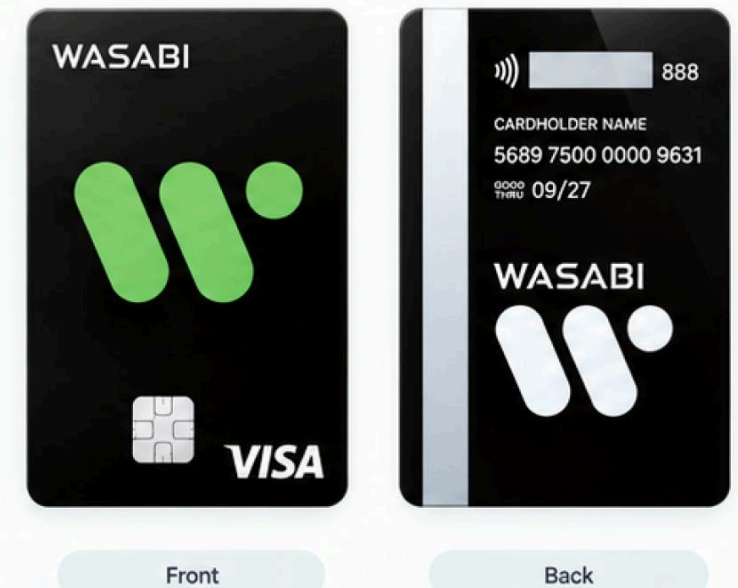

A	18.872 mm	Width of Visa Brand Mark or PVBM
B	6.095 mm	Height of Visa Brand Mark or PVBM
C	3.0 mm	Distance from card edge to Visa mark

- Lower left placement of Visa Brand Mark is allowed only on chip-less card, due to inadequate clear space.
- Upper right placement of Visa Brand Mark allowed only on chip-less card, due to inadequate clear space.

3

Sample

Reference design using WasabiCard brand identity.

04. BUSINESS USE CASES

Media Buying

Online Merchants

- Digital advertising payments
(Facebook Ads, Google Ads, TikTok, Amazon, etc.)
- E-commerce sourcing & fulfillment
(Shopify, AliExpress, Temu, Etsy, etc.)
- SaaS and productivity subscriptions
(Notion, Canva, Zoom, ChatGPT, AWS, Google Cloud, etc.)
- Affiliate marketing and influencer payouts

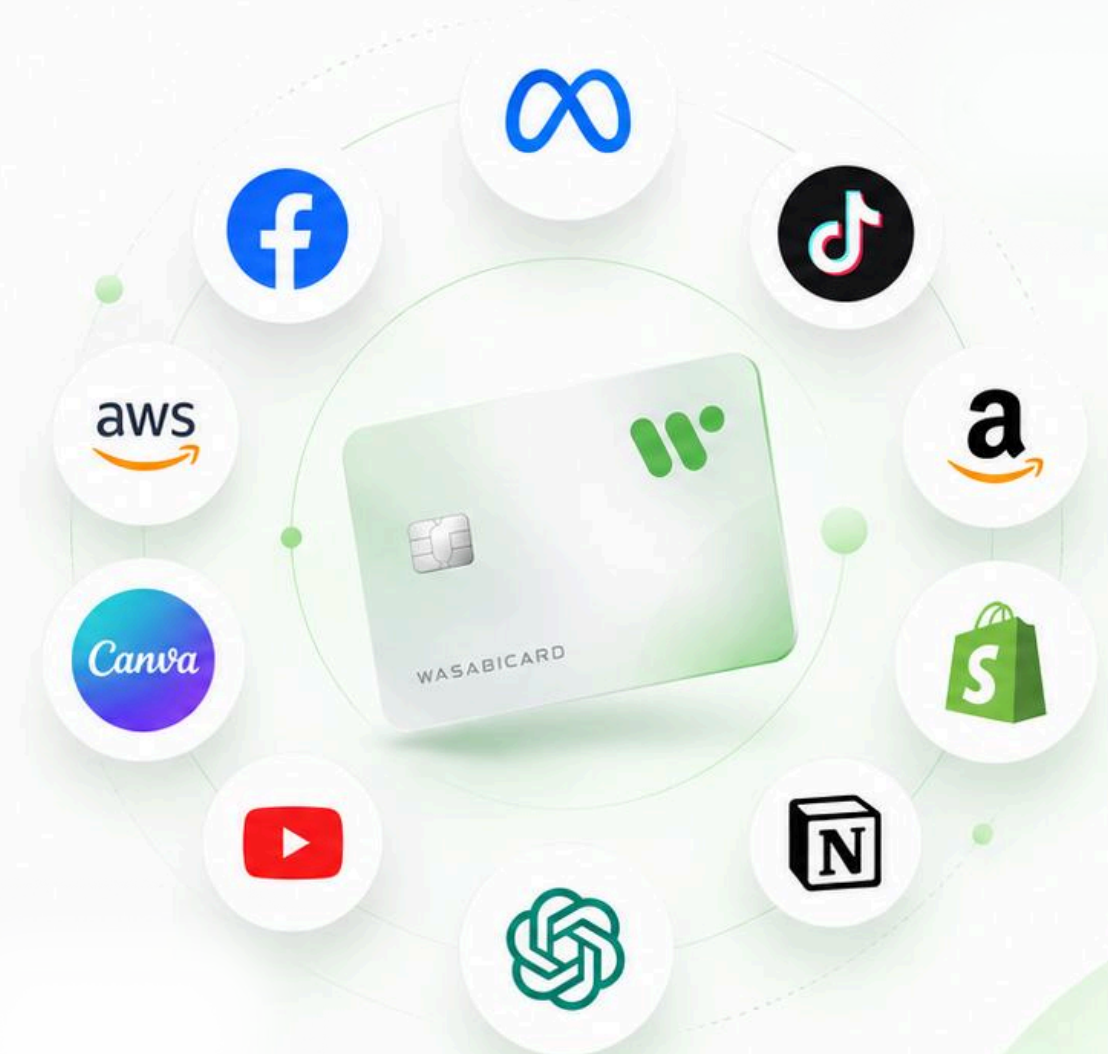

Competitive Fee

More than 70 Card BINs

High Success Rate

Creators & Affiliate Payouts

Help creator platforms distribute earnings faster worldwide.

Challenges for Creator Platforms

- Thousands of creators require frequent payouts
- Small-value global payments create complexity
- Creators need faster access to earnings

WasabiCard Solution

- Batch payouts at scale
- Local currency payouts
- Spendable earnings access

Web3 Global Payroll

Enable borderless web3 payroll with faster settlement, global accessibility, and compliant operations.

Challenges for Web3 Projects

- Global Web3 teams need borderless payroll
- Stablecoin salaries lack convenient usage options
- Compliance requirements are increasing

WasabiCard Solution

- Stablecoin-powered payroll
- Fiat conversion and local access
- Card spending and ATM withdrawals

Business Expenses Management

Give teams payment flexibility while maintaining financial control.

Challenges for Global Businesses

- Teams need flexible payment access
- Finance teams lack spending visibility
- Manual expense management is inefficient

WasabiCard Solution

- Provide virtual and physical cards for employees
- Expense Control & Management
- Real-time Transaction Visibility
- Support travel, subscriptions and procurement payments

Global Streamers Payroll

Simplify streamer settlements across global markets.

Challenges for Live Platforms

- Streamers have complex revenue structures
- High-frequency payouts require efficiency
- Global creators need accessible payments

WasabiCard Solution

- Frequent payout processing
- Transparent payment tracking
- Global payout coverage

Global Payroll Without Borders

Simplify global payroll without relying on traditional banking rails.

Challenges for Global Workforce

- Global teams require cross-border salary payments
- Traditional banking transfers are slow and costly
- Different regions have different payment access

WasabiCard Solution

- Pay employees across 200+ countries and regions
- Faster bulk salary payments
- Enable online spending and offline withdrawals
